

I'm in 100% support of Sinclair Broadcast Group's exercise of it's free speach rights granted by the U.S. Constitution by our fore fathers. In addition, I'm appauled at the lengths some people (and organizations) will go to silence those they disagree with while pretending that they are trying preserve our rights.

In encourage the FCC to continue to resist the attempt by those like Freepress.Net to supress the free expression of speach in this country.

Regards,

Russ Larrivee
